- Provided mentorship to the employees.

SKILLS

Programming Languages	JavaScript
Libraries/Frameworks	React, React Router, Tailwind CSS, Bootstrap
Tools / Platforms	Node.js, Git, VS Code, HTML, CSS
Databases	MongoDB

PROJECTS / OPEN-SOURCE

NOTES APP | Link   MongoDB, Express, React, Node.js, React Router, JavaScript, CSS

- The app allows users to create accounts, write notes, view their details and post updates.
- With this project I was aiming at writing backend and frontend and using MongoDB for a database.

POSTS APP | Link   React, Firebase, React Router, JavaScript, CSS

- The app allows users to create accounts, view and add listings for open positions (full-time/freelance).
- With this project I was aiming at using Firebase to implement the users data storage functionality.
